

Making a Design (1)

How to make a paper design:
Make a geometric pattern with paper.

1. First take a piece of coloured paper.
2. Then fold it in half.
3. Then fold it again.
4. Next cut some shapes in the paper with scissors.
5. After that, open the paper out.
6. Finally, glue it onto another different coloured piece of paper.

➡ After you finish, try it again in a different way.

Making a Design (2)

What did you do?

Now write about how you made the design.
Use the past tense for the verbs.

tried opened took
cut glued folded
